SUBJECT INDEX

Abortion, adolescent, AAP membership views, 561
Absorptiometry, dual-energy x-ray, osteopenia estimation in glucocorticoid-treated juvenile polyarthritis, 1127
Acetaminophen, hepatoxicity, after prolonged ingestion (letters), 1021
Aciduria, mevalonic, clinical and biochemical phenotype in patients with, 915
Acquired immunodeficiency syndrome
  at-risk adolescents, predictors of condom use among, 873
  day care for children with, 199
  Helicobacter pylori in children with (letter), 1217
  unique manifestations, adolescents, New York City, 730
Acrodermatitis, without evidence of bowel disease (letters), 509
Acyclovir, oral, varicella infections in otherwise healthy children (committee statement), 674, 858 (erratum)
Additive solutions, neonatal transfusion, national survey of practices, 523
Adiposity, television viewing and, adolescent girls, 273
Adolescent
  abortion, AAP membership views, 561
  chronic illness, race and ethnicity issues, bibliography for, 1071
  growth spurt, long-term inhaled corticosteroids effect, 1121
  health status measurement, 430
  HIV-infected, unique manifestations, 730
  mothers, home safety education for, 481
  offspring of
    child abuse risk, 642
    day care, 202
    developmental outcome, 202
  patterns of smokeless tobacco use, 75
  physical activity, television impact, girls, 273
  school-based crisis intervention services (commentary), 656
  sexually active male, predictors of condom use, 873
Age, effect on hymen's appearance, longitudinal study, 820
Air pollution, respiratory hazards (committee statement), 1210
Albumin, efficacy, nephrotic syndrome, 1142
Alcohol, prenatal exposure, fetal alcohol syndrome and fetal alcohol effects (committee statement), 1004
Allergy
  fixed drug eruption, phenolphthalein-induced, case report, 1199
  latex, intraoperative anaphylaxis to, 983
Alopecia, trichotillomania-associated, behavioral treatment for, 993
Ambulatory Pediatric Association, role of general pediatric research, 628
American Academy of Pediatrics
  Childhood Vaccine Act, possible undesirable effects (letters), 160
  Committee statements
    Committee on Child Health Financing: Principles of child health care financing, 506
    Committee on Child Health Financing: Scope of health care benefits for infants, children, and adolescents through age 21 years, 508
    Committee on Early Childhood, Adoption, and Dependent Care: Developmental issues in foster care for children, 1007
    Committee on Environmental Health: Ambient air pollution: Respiratory hazards to children, 1210
    Committee on Genetics and American Thyroid Association: Newborn screening for congenital hypothyroidism: Recommended guidelines, 1203
    Committee on Hospital Care: Child life programs, 671
    Committee on Infectious Diseases: The use of oral acylovir in otherwise healthy children with varicella, 674
    Committee on Infectious Diseases: Vitamin A treatment of measles, 1014
    Committee on School Health: Prevention of hepatitis B virus infection in school settings, 848
    Committee on School Health: Basic life support training in school, 158
    Committee on Substance Abuse and Committee on Children with Disabilities: Fetal alcohol syndrome and fetal alcohol effects, 1004
    Committee on Substance Abuse: Role of the pediatrician in prevention and management of substance abuse, 1010
    Vitamin K Ad Hoc Task Force: Controversies concerning vitamin K and the newborn, 1001
  Section report, Section on Urology: Summary of the annual meeting of the Section of Urology, 844
  views on adolescent abortion, 561
American Board of Pediatrics, candidates certified, 683
Amino acid, urine screening, association of SIDS and metabolic disorders, 986
Amphotericin-B, appropriate dosage, fungal infection, very low birth weight infants (letters), 1217
Analgesics, inactive ingredients, adverse reaction to, 927
Anaphylaxis
  intraoperative, latex-sensitive patients, 983
  prevalence, school children (letter), 516
Anemia
  iron deficiency
    blue sclerae as indicator of, 1195
    iron-fortified infant cereal role, 976
Anesthesia, local, neonatal lumbar puncture, 379
Antibiotics, positive throat culture after initiation of, group A β-hemolytic streptococcal pharyngitis, 1166
Anticonvulsant drugs, effect, reaction time, attention, and impulsivity, 101
Antidiarrheal drugs, adverse reactions to inert ingredients in, 927
Antihistamines, inactive ingredients, adverse reaction to, 927
Antipyretics, inactive ingredients, adverse reaction to, 927
Antiretroviral drug, dideoxyinosine-associated pancreatitis, HIV-infected children, 747
Anxiety, intranasal midazolam for, emergency procedures, preschoolers, 624
Anxiety disorder, incidence, young females, 321
Aortic coarctation, oscillometric blood pressure in children with, 761
Aortic root dilation, prevalence, fragile X syndrome, 714
Apnea
  body position during sleep and, 1112
  car seat-associated, monitoring of preterm infants for, 1137
  site of upper airway obstruction during, 595
Arginase, deficiency, presenting as cerebral palsy, 995
Arthritis, juvenile chronic, osteopenia estimation in glucocorticoid-treated children, 1127
Asthma
  health services utilization, impoverished children, 56
  inhaled corticosteroids effect on growth rate, adolescents, 1121
  morbidity, Hispanic children, 62
  prevalence, children with atopic dermatitis, 8, 13
  steroid effect on bone growth (letters), 517

Atresia, common pulmonary vein, role of extracorporeal membrane oxygenation, 403
Attachment disorder, treatment, neonatal ICU, 139
Attention, antiepileptic drugs and, 101
Attention deficit hyperactivity disorder
  creativity and, methylphenidate effect, 816
  incidence, young females, 321
  manifestation of Sydenham's chorea, 706
  ritalin treatment, evaluation of side effects, 1101
Audiometry, congenital conductive hearing loss identified by, 355
Avoidant disorder, incidence, young females, 321

Bacteremia, indirect hyperbilirubinemia as manifestation of (letter), 1018
Barbiturates, patterns of use, pediatric ICUs, 369
Battery ingestion, recommendations (letters), 681
Behavior
  entrainment, sleep patterns of breast-fed infants, 436
  high-risk, smokeless tobacco use among adolescents, 75
  maladaptive
    identification, preschoolers in primary care, 649
    young fragile X females, 321
  problems
    diagnostic criterion for Prader-Willi syndrome, 398
    preschool, prediction during infancy, 113
  sexual: *see* Sexual behavior
  trichotillomania treatment, 993
Benzodiazepines, patterns of use, pediatric ICUs, 369
Bicycle, as developmental toy vs. transportation vehicle, safety recommendations, 752
Bicycle helmet, subsidy, cost-effective analysis, 902
Bilirubin
  brain toxicity in neonates (letters), 1218
  potential neurotoxicity, etiology of hyperbilirubinemia and (letters), 164
Birth defects
  congenital conductive hearing loss, early identification of, 355
  fetal alcohol syndrome and fetal alcohol effects (committee statement), 1004
  limb disruption, associated with chorionic villus sampling, 989
  lower limb malformations, estimation of time of teratogenic insult, 411
  microgastria-limb reduction complex, clinical reports, 1192
  testing for Fanconi anemia in patients with, 1116
Birth weight
  as independent predictor of neonatal mortality, 969
  perinatal mortality specific to, United States and France, 464
Blood, abnormalities of, Fanconi anemia, 1116
Blood coagulopathy, screening, children with heparinized central venous catheters, 1147
Blood flow, cerebral, role of near infrared spectroscopy, 414
Blood pressure, oscillometric, healthy children and those with aortic coarctation, 761
Blood transfusion
  neonatal
    blood component therapy, 530
    red blood cell therapy, 523
Blue sclerae, as indicator of iron deficiency anemia 1195
Body position, sleep characteristics and, infants, 1112
Bone
  density, assessment, chronic cholestatic liver disease, 1151
  malformations of, Fanconi anemia, 1116
  skeletal demineralization, in infant with familial hypocalciuric hypercalemia, 144
Bone disease, metabolic, complication of chronic cholestatic liver disease, 1151
Bone mineral
  content, in chronic cholestatic liver disease, 1151
  density, determination, glucocorticoid-treated polyarthritis, 1127
Bowel disease, acrodermatitis without evidence of (letters), 509
Brain
  atrophy
    cerebellar, symptom of mevalonic aciduria, 915
    HIV-associated, hemophilic subjects, 742
  hemorrhage, associated with urinary tract infection (letters), 1219
  magnetic resonance imaging, HIV and immune status effects, hemophilic subjects, 742
Breast-feeding
  behavioral entrainment of sleep patterns, 436
  carbohydrate composition changes over time, 637
  cow's milk as alternative to (letters), 515
  exclusive, as protection against otitis media, 867
  exercise effect on breast milk (letters), 514, 1016
  hyperbilirubinemia interventions, controlled trial, neonates, 470
  prolonged, growth effect, 766
  tracking of serum lipid levels from birth to childhood, 949
Bright Futures, role, health supervision/promotion (commentary), 998
Bronchopulmonary dysplasia
  incidence, cromolyn sodium effect, pilot study, 803
  lipid hydroperoxide contamination and, preterm infants, 83
Bulimia, interscholastic wrestlers, statewide survey, 826

Cannulation, intraosseous, compartment syndrome following, 1201
Carbamazepine, effect, reaction time, attention, and impulsivity, 101
Carbohydrate, composition changes over time, human milk, 637
Cardiopulmonary resuscitation, management, pediatric emergency department, 726
Catheter, indwelling, coagulopathy screening in children with, 1147
Ceftriaxone
  intramuscular, evaluation of febrile infant (letters), 677
  single-dose intramuscular, acute otitis media, 23
Central nervous system, malformations of, Fanconi anemia, 1116
Cerebellum, atrophy, mevalonic aciduria patients, 915
Cerebral palsy
  arginase deficiency presenting as, 995
  incidence, very low birth weight infants, 961
  prevalence, improved survival of very low birth weight infants and, 1094
Cerebrospinal fluid, evaluation of febrile infant (letters), 677
Chest radiograph, scoring system, cystic fibrosis, 488
Chickenpox, modified, after Oka/Merck varicella vaccine, 17
Child abuse: *see also* Sexual abuse
  fatal
    estimated, United States, 338
    SIDS diagnosis and, 423
    underreporting of, 330
  risk, children of teenage mothers, 642
Child Behavior Checklist, role, early intervention, low birth weight infants, 45
Child development, day care role, French children, 253
Child health, international, Child Survival program role, 703
Child life program, role, hospitalization and medical care (committee statement), 671
Child safety
  adjustable baseball pitching machine (letter), 679
  bicycle helmet subsidies, cost-effectiveness of, 902
  bicycle helmet use, promotional strategy for, 772
  burn prevention, microwave and conventional ovens, 344
  car seats
    monitoring program, premature infants, 1137
    recycling by developmentally disabled children, 659
  home education for adolescent mothers, 481
  lead poisoning prevention (letter), 1216
  motor vehicle restraints and, children less than 5 years old, 897
  poisoning hazards (letters), 1017
  recommendations, bicycle-motor vehicle collisions, 752
Chloral hydrate, patterns of use, pediatric ICUs, 369
Cholestasis, chronic, bone mineral content in children with, 1151
Cholesterol
  screening, classification and treatment of primary hyperlipidemia, 92
  serum levels, tracking from birth to childhood, 949
Chorionic villus, sampling, limb disruption defects associated with, 989

Clinic, continuity experience, pediatric residents, 1089
Clinical research, network, very low birth weight outcome, 540
Clinical trial, sample size and statistical significance, 155
Cocaine
prenatal exposure
infant growth and, 350
neonatal neurobehavioral effects, 778
Commentaries
Acellular pertussis vaccine booster, 842
Childhood lead poisoning: Definitions and priorities, 504
Concerning the American Academy of Pediatrics recommendation on sleep position for infants, 497
Diagnosing and treating health: Bright futures, 998

developmental, recycling of car seats by children with, 659
informing interview, physician role during, 578
learning, diagnostic criterion for Prader-Willi syndrome, 398
multiculturalism, chronic illness and, 1048
race and ethnicity issues, adolescents, bibliography for, 1071
Disease
sexually transmitted
condom use by male adolescents at risk for, 873
role, HIV-infected adolescents, New York City, 730

sociodemographic characteristics of HIV-infected children, 39
Diuretic therapy, efficacy, nephrotic syndrome, 1142
Drowning, epilepsy as risk factor for, 612
Dyes/preservatives, adverse reactions to, oral medications, 927

Ear, congenital conductive hearing loss, early identification of, 355
Echocardiography, heart murmur evaluation, cost assessment of, 365
Echodensity, periventricular, intraventricular hemorrhage and, very low birth weight infant, 474
Eczema
atopic
bronchial hyperresponsiveness in children with, 13
respiratory symptoms in children with, 8
Edema, nephotic syndrome-associated, albumin and diuretic therapy for, 1142
Education, home safety, adolescent mothers, 481
Elastase, role, acute pulmonary damage in respiratory distress syndrome, 794
Electroencephalogram, neonatal seizures, clinical correlates, preterm and full-term infants, 128
Embolization, transcatheter, vein of Galen malformations, neonate, 583
Emergency care, basic life support training, high school students (committee statement), 158
Emergency department
cardiopulmonary and trauma resuscitation management, 726
humorous episodes (letters), 680
visit as marker for undervaccination, preschool-age children, 605
Employer, child care policies, 209
Encopresis, safety of combination therapy for, 591
Energy intake, self-regulation questioned (letters), 1215
Environmental health, lead exposure and motor development, urban children, 301
Epidemiology
abuse-related child fatalities, underreporting of, 330
cerebral palsy prevalence, improved survival of low birth weight infants and, 1094
cocaine use in delivering mothers, 350
failure to thrive, risk factors, low birth weight preterm infants, 941
respiratory symptoms in atopic dermatitis, 8
Rett syndrome, population-based registry for, 445
risk factors for delayed immunization, 308
risk factors for SIDS, clinicopathologic findings and, 106
Epilepsy
as risk factor for submersion injury, 612
effects of antiepileptic drugs, 101
neonatal, clinical correlates, preterm and full-term infants, 128
Erratum, 858
Erythema migrans, early Lyme disease without, 456
Erythromycin, positive throat culture after initiation of, group A β-hemolytic streptococcal pharyngitis, 1166
Escherichia coli, recurrent hemolytic uremic syndrome secondary to, 666
Excipients, adverse reactions to, oral medications, 927
Exercise
maternal, effect on breast milk (letters), 514, 1016
television impact, adolescent girls, 273, 499 (commentary)
Extracorporeal membrane oxygenation, role, common pulmonary vein atresia, 403

Failure to thrive, risk factors and outcomes, low birth weight preterm infants, 941
Family
compliance, home treatment of cystic fibrosis patients, 383
culture, ethnicity and, children with chronic illness, 1063
day care impact, 222
mobility, impact on children's health care, 934
therapy, effect on childhood obesity, 880
Fanconi anemia, early diagnosis of, 1116
Fat
dietary reduction
preschoolers, 955
school lunches, 1107
Fatigue, chronic, illness or disease? (letters), 163
Feces, containment, cloth vs. disposable diapers, 632
Females, adolescent, television-obesity relationship, 273
Fentanyl, patterns of use, pediatric ICUs, 369
Fetal alcohol syndrome, fetal alcohol effects and (committee statement), 1004
Fever
after DPT vaccine, 1158
assessment, aural, oral, or rectal (letter), 166
evaluation, in infants (letters), 677
Fiber, role, combination therapy for encopresis, 591
Fluid, intraosseous infusion, compartment syndrome following, 1201
Flu-like illness, early Lyme disease characterized by, 456
Fluoxymesterone, low-dose, constitutional growth delay and genetic short stature, 716
Food preferences, low-fat foods, school lunches, 1107
Forced expiratory volume, 10-year trend, cystic fibrosis patients, family role, 383
Foreign body ingestion, complication risk, site of initial health care contact and, 121
Foreskin, forced retraction of (letter), 1215
Foster care, developmental issues (committee statement), 1007
Fragile X syndrome
cardiovascular abnormalities in children with, 714
psychiatric disorders with, young females, 321
Fresh frozen plasma, neonatal, national survey of transfusion practices, 523

Garlic, as naturopathic remedy, adverse effects of, 658
Gastrointestinal tract
dysfunction, in partial methylcrotonyl-coenzyme A carboxylase deficiency, 664
malformations of, Fanconi anemia, 1116
Gender, role, psychosocial sequelae of chronic physical disorders, 1131
